

“Sometimes, elegant `<codes/>` are **!readable.**”

ABOUT ME

I'm a Web Developer with a strong command of Laravel's MVC architecture and Query Builder/Eloquent ORM, my skills include RESTful API development and third-party integrations. As a hobbyist coder, crafting elegant and efficient solutions is not just a job for me; it's a love affair with technology. I believe in writing clean, well-documented code that is easy to read and maintain.

SKILLS

- Laravel
- Bootstrap
- Axios
- JQuery
- MySQL
- PHP
- HTML
- CSS
- AJAX
- Canva
- Git/Github
- GNU/Linux OS
- Javascript
